

CT30A5000 - NETWORK PROGRAMMING - 5 ECTS / Jouni Ikonen

ACADEMIC HONESTY

Rules for exercises were given and mentioned in the exercises (including the take home exam):

http://www2.it.lut.fi/wiki/doku.php/courses/ct30a5000/generic_instructions_and_requirements

They state:

INDIVIDUAL WORK – **NO COPYING** – NO GROUPWORK (discuss but do not share code)

Mark used references

If you want to comment some aspects of your work (exercise works or home exam) which you are not sure that they fit to previous statements, please comment them here (or back side).

By signing the following table I declare that I have done all the work independently according to academic and course rules:

Task name	Signature	Notes
Aphorism exchange system		
Multicast chat		
TCP radio station		
SNTPv4 server and client		
Data transfer analysis		
FTP client		
Take home exam
